REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claims address a temporal image processing system and method which produces a confidence map used to enhance the contrast of a temporal change (misregistration) between two registered scanned images from a scanning unit. This feature is neither shown nor fairly suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Scarth *et al.* US 6,064,770 A shows detecting temporal changes in images.
